Professional Summary

Full Stack Developer with strong backend expertise in NestJS, Node.js, and PostgreSQL. Experienced in building scalable, production-grade systems including a real-client enterprise WMS and an AI-powered RAG application with semantic search and LLM integration. Proficient in RESTful API development, database design, and modern JavaScript/TypeScript ecosystems.

Skills and Expertise

Languages: JavaScript, TypeScript, Python, C++, SQL
Frontend: React.js, Next.js, Tailwind CSS, HTML, CSS
Backend: Node.js, Express.js, NestJS, FastAPI, RESTful APIs, JWT Authentication
Databases: PostgreSQL, MongoDB, TypeORM, ACID Transactions, Database Indexing
AI/ML: RAG Pipeline, FAISS, SentenceTransformers, FLAN-T5, HuggingFace
Core: Data Structures & Algorithms, System Design, OOP, DBMS, Operating Systems
Tools & Practices: Git, GitHub, Postman, API Testing, Environment Variables, CORS, Error Handling

Projects & Experience

Warehouse Management System (WMS) 2025

Tech: NestJS, TypeScript, PostgreSQL, TypeORM, React.js, RESTful APIs, JWT

- Built and delivered enterprise-level cold storage and inventory management system for a real client
- Designed relational database schema with hierarchical storage model in PostgreSQL covering all edge cases
- Implemented inventory inward/outward workflows with ACID-compliant transactions and database-level locking
- Architected modular RESTful APIs using NestJS with clean separation of concerns and secure JWT authentication
- Implemented proper error handling, logging, and environment-based configuration

AI Knowledge Companion 2025

Tech: Next.js, Node.js, FastAPI, FAISS, SentenceTransformers, FLAN-T5, Python

- Built full-stack RAG pipeline enabling natural language Q&A over uploaded PDF and DOCX documents
- Implemented semantic search using FAISS vector database for efficient document retrieval
- Integrated FLAN-T5 LLM for context-aware natural language response generation
- Designed ChatGPT-style conversational UI using React.js and Tailwind CSS

AI Image Generator 2024

Tech: React.js, Node.js, ClipDrop API, JWT Authentication

- Integrated ClipDrop API for prompt-to-image generation with responsive React.js frontend
- Implemented JWT-based authentication system for secure and role-based user access

Education

Teerthanker Mahaveer University 2024 – 2028

Bachelor of Technology in Computer Science and Engineering
CGPA: 8.39/10 (till 3rd Semester)

Class XII (PCM) 82.4%
Class X 89.33%
